DESCRIPTION

When there is tension between values/beliefs of an individual health care professional and the ethical imperative to treat all patients with dignity and respect, conflict (and legal issues) may arise. This webinar will explore potential conflicts and offer strategies and tools for professionals in effectively serving the LGBTQ communities.

LEARNING OBJECTIVES

At the conclusion of this webinar, participants will be able to:

- Identify the ethical principles relevant to the provision of palliative care and hospice care;
- Describe how advance care planning is a core aspect of protecting LGBTQ patients autonomy; and
- Describe how they can help LGBTQ individuals and families navigate the ethical and legal issues they may encounter.

CONTINUING EDUCATION CREDITS
