Advance Health Care Planning

Confidence and Peace of Mind for You and Your Family

Tips for using the zoom Q&A Feature

- ▶ In your controls at the bottom of the window, click Q&A. If you are on a mobile device, tap Participants, then Q&A,
- ▶ The Q&A window will open on the right side or at the bottom of your screen.
- ▶ You can ask me questions and answer my questions in the Q&A window.
- ▶ Type your message into the Q&A window and press 'enter' to send me your message.

Why is advance health care planning important?

- ▶ **Life is unpredictable**
- ▶ **Without clear direction, medical teams do everything possible to sustain life**
- ▶ **Best to not make hard decisions during a crisis**
- ▶ **Planning = Empowerment and Confidence**
- ▶ **Preparedness = Peace of Mind**

Why is advance health care planning important?

In the midst of the COVID-19 pandemic, people are realizing they are unprepared. It is especially important to think about the care you, or someone you love, would want if faced with serious illness.

Why is advance health care planning important?

Show video

**HOPE Gives. Confidence & Peace of Mind
through Advance Health Care Planning**

<https://vimeo.com/410000253>

Discuss what matters most to you?

Consider these questions:

- 
- ▶ **What and who are most important in your life?**
 - ▶ **What experiences have you had with serious illness or death?**
 - ▶ **If you were very sick, what would be most important to you?**
 - ▶ **Would you want to live as long as possible even if that means accepting serious physical and social limitations?**

Having the 'Conversation'

A few tips on having your conversation:

- ▶ **Decide on a good time to talk.**
- ▶ **Decide who you want to be part of the conversation.**
- ▶ **Let the person(s) know in advance what you are going to talk about.**
- ▶ **Have the conversation in comfortable place, usually in your home.**
- ▶ **Pour yourself a nice cup of tea or something stronger ;)**
- ▶ **Have your talking points in mind or written down before you have your conversation.**

Putting your healthcare wishes in writing

California Advance Health Care Directive

This form lets you have a say about how you want to be cared for if you cannot speak for yourself.

This form has 3 parts:

Part 1 Choose a medical decision maker, Page 3

A medical decision maker is a person who can make health care decisions for you if you are not able to make them yourself. This person will be your advocate. They are also called a health care agent, proxy, or surrogate.

Part 2 Make your own health care choices, Page 7

This form lets you choose the kind of health care you want. This way, those who care for you will not have to guess what you want if you are not able to tell them yourself.

Part 3 Sign the form, Page 13

The form must be signed before it can be used.

You can fill out Part 1, Part 2, or both.

Fill out **only** the parts you want. Always sign the form in Part 3.

2 witnesses need to sign on Page 14, or a notary on Page 15.

Your Name _____

POLST Form
capolst.org

Advance Health Care Directive
prepareforyourcare.org

HIPAA PERMITS DISCLOSURE OF POLST TO OTHER HEALTH CARE PROVIDERS AS NECESSARY		
Patient Information		
Name (last, first, middle):	Date of Birth:	Gender: M F
NPPA's Supervising Physician Name:		Preparer Name (if other than signing Physician/NPPA) Name/Title: Phone #:
Additional Contact - None		
Name:	Relationship to Patient:	Phone #:
Directions for Health Care Provider		
Completing POLST		
<ul style="list-style-type: none"> Completing a POLST form is voluntary. California law requires that a POLST form be followed by healthcare providers, and providers must comply in good faith. In the hospital setting, a patient will be assessed by a physician, or a nurse practitioner (NP) or a physician assistant (PA) acting under the supervision of the physician, who will issue appropriate orders that are consistent with the patient's preferences. POLST does not replace the Advance Directive. When available, review the Advance Directive and POLST form to ensure consistency, and update forms appropriately to resolve any conflicts. POLST must be completed by a health care provider based on patient preferences and medical indications. A legally recognized decisionmaker may include a court-appointed conservator or guardian, agent designated in an Advance Directive, orally designated surrogate, spouse, registered domestic partner, parent of a minor, closest available relative, or person whom the patient's physician/NPPA believes best knows what is in the patient's best interest and will make decisions in accordance with the patient's expressed wishes and values to the extent known. A legally recognized decisionmaker may execute the POLST form only if the patient lacks capacity or has designated that the decisionmaker's authority is effective immediately. To be valid a POLST form must be signed by (1) a physician, or by a nurse practitioner or a physician assistant acting under the supervision of a physician and within the scope of practice authorized by law and (2) the patient or decisionmaker. Verbal orders are acceptable with follow-up signature by physician/NPPA in accordance with facility/community policy. If a translated form is used with patient or decisionmaker, attach it to the signed English POLST form. Use of original form is strongly encouraged. Photocopies and FAXes of signed POLST forms are legal and valid. A copy should be retained in patient's medical record, on Ultra Pink paper when possible. 		
Using POLST		
<ul style="list-style-type: none"> Any incomplete section of POLST implies full treatment for that section. 		
Section A:		
<ul style="list-style-type: none"> If found pulseless and not breathing, no defibrillator (including automated external defibrillators) or chest compressions should be used on a patient who has chosen "Do Not Attempt Resuscitation." 		
Section B:		
<ul style="list-style-type: none"> When comfort cannot be achieved in the current setting, the patient, including someone with "Comfort-Focused Treatment," should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture). Non-invasive positive airway pressure includes continuous positive airway pressure (CPAP), bi-level positive airway pressure (BiPAP), and bag valve mask (BVM) assisted respirations. IV antibiotics and hydration generally are not "Comfort-Focused Treatment." Treatment of dehydration prolongs life. If a patient desires IV fluids, indicate "Selective Treatment" or "Full Treatment." Depending on local EMS protocol, "Additional Orders" written in Section B may not be implemented by EMS personnel. 		
Reviewing POLST		
<p>It is recommended that POLST be reviewed periodically. Review is recommended when:</p> <ul style="list-style-type: none"> The patient is transferred from one care setting or care level to another, or There is a substantial change in the patient's health status, or The patient's treatment preferences change. 		
Modifying and Voiding POLST		
<ul style="list-style-type: none"> A patient with capacity can, at any time, request alternative treatment or revoke a POLST by any means that indicates intent to revoke. It is recommended that revocation be documented by drawing a line through Sections A through D, writing "VOID" in large letters, and signing and dating this line. A legally recognized decisionmaker may request to modify the orders, in collaboration with the physician/NPPA, based on the known desires of the patient or, if unknown, the patient's best interests. 		
<p>This form is approved by the California Emergency Medical Services Authority in cooperation with the statewide POLST Task Force. For more information or a copy of the form, visit www.capolst.org.</p>		
SEND FORM WITH PATIENT WHENEVER TRANSFERRED OR DISCHARGED		

PREPARE™

for your care

California Advance Health Care Directive

This form lets you have a say about how you want to be cared for if you cannot speak for yourself.

This form has 3 parts:

Part 1 Choose a medical decision maker, Page 3

A medical decision maker is a person who can make health care decisions for you if you are not able to make them yourself.

This person will be your advocate.

They are also called a health care agent, proxy, or surrogate.

Part 2 Make your own health care choices, Page 7

This form lets you choose the kind of health care you want. This way, those who care for you will not have to guess what you want if you are not able to tell them yourself.

Part 3 Sign the form, Page 13

The form must be signed before it can be used.

You can fill out Part 1, Part 2, or both.

Fill out **only** the parts you want. Always sign the form in Part 3.

2 witnesses need to sign on Page 14, or a notary on Page 15.

Your Name

This is a legal form that lets you have a voice in your health care.

It will let your family, friends, and medical providers know how you want to be cared for if you cannot speak for yourself.

What should I do with this form?

- Please share this form with your family, friends, and medical providers.
- Please make sure copies of this form are placed in your medical record at all the places you get care.

What if I have questions about the form?

- It is OK to skip any part of this form if you have questions or do not want to answer.
- Ask your doctors, nurses, social workers, family, or friends to help.
- Lawyers can help too. This form does not give legal advice.

What if I want to make health care choices that are not on this form?

- On Page 12, you can write down anything else that is important to you.

When should I fill out this form again?

- If you change your mind about your health care choices
- If your health changes
- If your medical decision maker changes

If your spouse is your decision maker, and you divorce, that person will no longer be your decision maker.

Give the new form to your medical decision maker and medical providers.

Destroy old forms.

Share this form and your choices with your family, friends, and medical providers.

Part 1 Choose your medical decision maker

Your medical decision maker can make health care decisions for you if you are not able to make them yourself.

A good medical decision maker is a family member or friend who:

- is 18 years of age or older
- can talk to you about your wishes
- can be there for you when you need them
- you trust to follow your wishes and do what is best for you
- you trust to know your medical information
- is not afraid to ask doctors questions and speak up about your wishes

Legally, your decision maker **cannot** be your doctor or someone who works at your hospital or clinic, unless they are a family member.

What will happen if I do not choose a medical decision maker?

If you are not able to make your own decisions, your doctors will turn to family and friends or a judge to make decisions for you. This person may not know what you want.

If you are not able, your medical decision maker can choose these things for you:

- doctors, nurses, social workers, caregivers
- hospitals, clinics, nursing homes
- medications, tests, or treatments
- who can look at your medical information
- what happens to your body and organs after you die

Health care decision aids on cardiopulmonary resuscitation (CPR), mechanical ventilation (ventilator), tube feeding (artificial nutrition) will be included in your post-workshop email.

CPR Decision Aid

What is CPR?

CPR (Cardio-Pulmonary Resuscitation) is an attempt to restart a person's heart when the heart has stopped beating or cannot pump blood.

How is CPR done?

Many people have seen CPR on television. TV often makes CPR look quick and easy. But it is not.

During CPR:

- The chest is pushed down two (2) or more inches many times each minute to make the heart pump.
- Strong electrical shocks may be given through the chest to make the heart beat at a normal rate.
- Medicine may be given, usually through an IV (intravenous) line.
- A mask may be placed on the face or a tube in the windpipe (trachea). These are often used to assist with breathing.

When do people need CPR?

It is needed when someone's heart stops. When this happens, healthcare providers will try CPR *unless* the person has completed a DNR (Do-Not-Resuscitate) order or a POLST (Physician Order for Life-Sustaining Treatment) that says they do not want CPR.

How might CPR help a person whose heart has stopped?

- The goal of CPR is to restart a person's heart.
- CPR can pump blood and support the body's organs, like the brain.
- CPR may give the medical team time to keep the heart beating after restarting.
- CPR may give the medical team time to try to find and try to treat the medical problem that caused the heart to stop pumping.

Who should use this guide?

This decision aid is for people with serious illness. It can be used to support medical decision-making and conversations about **CPR**.

Here are more decisions your medical decision maker can make:

Start or stop life support or medical treatments, such as:

- **CPR or cardiopulmonary resuscitation**
cardio = heart • pulmonary = lungs • resuscitation = try to bring back

This may involve:

- pressing hard on your chest to try to keep your blood pumping
- electrical shocks to try to jump start your heart
- medicines in your veins

- **Breathing machine or ventilator**
The machine pumps air into your lungs and tries to breathe for you. You are not able to talk when you are on the machine.

- **Dialysis**
A machine that tries to clean your blood if your kidneys stop working.

- **Feeding Tube**
A tube used to try to feed you if you cannot swallow. The tube can be placed through your nose down into your throat and stomach. It can also be placed by surgery into your stomach.

- **Blood and water transfusions (IV)**
To put blood and water into your body.

- **Surgery**

- **Medicines**

End of life decisions your medical decision maker can make:

- call in a religious or spiritual leader
- decide about autopsy or organ donation
- decide if you die at home or in the hospital
- decide about burial or cremation

Your Name

By signing this form, you allow your medical decision maker to:

- agree to, refuse, or withdraw any life support or medical treatment if you are not able to speak for yourself
- decide what happens to your body after you die, such as funeral plans and organ donation

If there are decisions you do not want them to make, write them here:

When can my medical decision maker make decisions for me?

- ONLY after I am not able to make my own decisions
- NOW, right after I sign this form

If you want, you can write why you feel this way.

Write the name of your medical decision maker.

I want this person to make my medical decisions if I am not able to make my own:

first name last name

phone #1 phone #2 relationship

address city state zip code

If the first person cannot do it, then I want this person to make my medical decisions:

first name last name

phone #1 phone #2 relationship

address city state zip code

Your Name

Why did you choose your medical decision maker?

If you want, you can write why you chose your #1 and #2 decision makers.
Or, write down anyone you would NOT want to help make medical decisions for you.

How strictly do you want your medical decision maker to follow your wishes if you are not able to speak for yourself?

Flexibility allows your decision maker to change your prior decisions if doctors think something else is better for you at that time.

Prior decisions may be wishes you wrote down or talked about with your medical decision maker. You can write your wishes in Part 2 of this form.

Put an X next to the **one** sentence you most agree with.

- Total Flexibility:** It is OK for my decision maker to change any of my medical decisions if my doctors think it is best for me at that time.
- Some Flexibility:** It is OK for my decision maker to change some of my decisions if the doctors think it is best. But, these wishes I NEVER want changed:
- No Flexibility:** I want my decision maker to follow my medical wishes exactly. It is NOT OK to change my decisions, even if the doctors recommend it.

If you want, you can write why you feel this way.

To make your own health care choices, go to Part 2 on Page 7. If you are done, you must sign this form on Page 13.

Please share your wishes with your family, friends, and medical providers.

Part 2

Make your own health care choices

Fill out only the questions you want.

How do you prefer to make medical decisions?

Some people prefer to make their own medical decisions. Some people prefer input from others (family, friends, and medical providers) before they make a decision. And, some people prefer other people make decisions for them.

Please note: Medical providers cannot make decisions for you. They can only give information to help with decision making.

How do you prefer to make medical decisions?

- I prefer to make medical decisions on my own without input from others.
- I prefer to make medical decisions only after input from others.
- I prefer to have other people make medical decisions for me.

If you want, you can write why you feel this way, and who you want input from.

What Matters Most in Life? Quality of life differs for each person.

What is Most Important In Your Life? Check as many as you want.

- Your family or friends
- Your pets
- Hobbies, such as gardening, hiking, and cooking
Your hobbies
- Working or volunteering
- Caring for yourself and being independent
- Not being a burden on your family
- Religion or spirituality: Your religion
- Something else

What brings your life joy? What are you most looking forward to in life?

What Matters Most for your Medical Care? This differs for each person.

For some people, the main goal is to be kept alive as long as possible even if:

- They have to be kept alive on machines and are suffering
- They are too sick to talk to their family and friends

For other people, the main goal is to focus on quality of life and being comfortable.

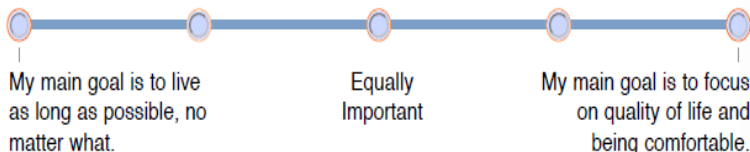

- These people would prefer a natural death, and not be kept alive on machines

Other people are somewhere in between. **What is important to you?**

Your goals may differ today in your current health than at the end of life.

TODAY, IN YOUR CURRENT HEALTH

Put an X along this line to show how you feel today, in your current health.

If you want, you can write why you feel this way.

[Blank light blue box for writing]

AT THE END OF LIFE

Put an X along this line to show how you would feel if you were so sick that you may die soon.

If you want, you can write why you feel this way.

[Blank light blue box for writing]

Quality of life differs for each person at the end of life.

What would be most important to you?

AT THE END OF LIFE

Some people are willing to live through a lot for a chance of living longer.

Other people know that certain things would be very hard on their quality of life.

- Those things may make them want to focus on comfort rather than trying to live as long as possible.

At the end of life, which of these things would be very hard on your quality of life?

Check as many as you want.

- Being in a coma and not able to wake up or talk to my family and friends
- Not being able to live without being hooked up to machines
- Not being able to think for myself, such as severe dementia
- Not being able to feed, bathe, or take care of myself
- Not being able to live on my own, such as in a nursing home
- Having constant, severe pain or discomfort
- Something else [Blank light blue box]

- OR, I am willing to live through all of these things for a chance of living longer.

If you want, you can write why you feel this way.

[Blank light blue box for writing]

What experiences have you had with serious illness or with someone close to you who was very sick or dying?

- If you want, you can write down what went well or did not go well, and why.

[Blank light blue box for writing]

If you were dying, where would you want to be?

- at home
- in the hospital
- either
- I am not sure

What else would be important, such as food, music, pets, or people you want around you?

[Blank light blue box for writing]

How Do You Balance Quality of Life with Medical Care?

Sometimes illness and the treatments used to try to help people live longer can cause pain, side effects, and the inability to care for yourself.

Please read this whole page before making a choice.

AT THE END OF LIFE, some people are willing to live through a lot for a chance of living longer. Other people know that certain things would be very hard on their quality of life.

Life support treatment can be CPR, a breathing machine, feeding tubes, dialysis, or transfusions.

Check the **one** choice you most agree with.

If you were so sick that you may die soon, what would you prefer?

- Try all life support treatments that my doctors think might help. I want to stay on life support treatments even if there is little hope of getting better or living a life I value.
- Do a trial of life support treatments that my doctors think might help. But, I **DO NOT** want to stay on life support treatments if the treatments do not work and there is little hope of getting better or living a life I value.
- I do not want life support treatments, and I want to focus on being comfortable. I prefer to have a natural death.

What else should your medical providers and decision maker know about this choice? Or, why did you choose this option?

Your decision maker may be asked about organ donation and autopsy after you die. Please tell us your wishes.

ORGAN DONATION

Some people decide to donate their organs or body parts. What do you prefer?

- I want to donate my organs or body parts.

Which organ or body part do you want to donate?

- Any organ or body part
- Only _____

- I do not want to donate my organs or body parts.

What else should your medical providers and medical decision maker know about donating your organs or body parts?

AUTOPSY

An autopsy can be done after death to find out why someone died. It is done by surgery. It can take a few days.

- I want an autopsy.
- I do not want an autopsy.
- I only want an autopsy if there are questions about my death.

FUNERAL OR BURIAL WISHES

What should your medical providers and decision maker know about how you want your body to be treated after you die, and your funeral or burial wishes?

- Do you have religious or spiritual wishes?
- Do you have funeral or burial wishes?

What else should your medical providers and medical decision maker know about you and your choices for medical care?

Your Name

Part 3 Sign the form

Before this form can be used, you must:

- sign this form if you are 18 years of age or older
- have two witnesses or a notary sign the form

Sign your name and write the date.

sign your name	today's date		
print your first name	print your last name	date of birth	
address	city	state	zip code

Witnesses or Notary

Before this form can be used, you must have 2 witnesses or a notary sign the form. The job of a notary is to make sure it is you signing the form.

Your witnesses must:

- be 18 years of age or older
- know you
- agree that it was you that signed this form

Your witnesses cannot:

- be your medical decision maker
- be your health care provider
- work for your health care provider
- work at the place that you live (if you live in a nursing home go to Page 15)

Also, one witness cannot:

- be related to you in any way
- benefit financially (get any money or property) after you die

Witnesses need to sign their names on Page 14.

If you do not have witnesses, a notary must sign on Page 15.

Have your witnesses sign their names and write the date.

By signing, I promise that _____ signed this form.
(the person named on Page 13)

They were thinking clearly and were not forced to sign it.

I also promise that:

- I know this person or they can prove who they are
- I am 18 years of age or older
- I am not their medical decision maker
- I am not their health care provider
- I do not work for their health care provider
- I do not work where they live

One witness must also promise that:

- I am not related to them by blood, marriage, or adoption
- I will not benefit financially (get any money or property) after they die

Witness #1

_____ date _____
sign your name

_____ print your first name _____ print your last name

_____ address _____ city _____ state _____ zip code

Witness #2

_____ date _____
sign your name

What's next?

Take the HOPEGives Pledge at hospicegiving.org

HOPE Gives
Pledge: My Wishes, My Decisions, My Life

I take this pledge to express my wishes and prepare for my end of life. I will try to help the people close to me have open conversations about end of life.

I want the best care possible through end of life and I want my loved ones supported. **Therefore, I will:**

- Talk with my loved ones about what is important to me and how I want to live fully through end of life.
- Specify cultural traditions and/or religious beliefs that I want honored.
- Affirm my end-of-life preferences early when I am of sound mind and body.
- Share this Pledge with my primary doctor or provider.

I understand the importance and benefits of legal paperwork that document my wishes. **Therefore, I:**

- Will get help to complete these documents and review them often.
- Understand I may change my wishes at any time, as my circumstances and priorities evolve.

I, _____ have read and thought about the statements above. While I know preparing for end of life is not simple and the conversations can be hard, I promise to devote time to talking about and writing down what matters most to me.

Check which applies.
I pledge to begin complete and/or review my Advance Health Care Directive within ___ weeks.

Signature _____ Date _____

I would like to receive resources, planning tools and information from HG Foundation in the future. I understand that I may change my contact preferences at any time.

E-mail _____ Phone _____
