- Section 5: Statistical Information

We understand that organizations collect and report demographic data in varying ways. In recognition of these differences, we have refined our approach to requesting this information. Most fields in this section are no longer required, but we encourage you to share the data your organization currently tracks. We have added a required narrative question in this section to support a more comprehensive understanding of your program's reach.

Unless otherwise specified, please report data for the fiscal year in which your grant was awarded, using the period **July 1 through June 30**. If your internal systems do not align with this timeframe, you will have the opportunity to indicate the reporting period used in a separate question.
